

LEATHER COVERS APRIL 1, 2011

NAME	CODE	COLOR
PRIME	P301	Black
	P302	Hunter
	P304	Bronze
	P305	Cherry
	P306	Off White
	P307	Latte
	P308	Havana
	P309	Red
	P310	Nature
	P311	White
	P312	Brown

PRIME is an aniline-dyed leather in which the whole grain has been carefully emphasized for consistency in color and texture. It has been protectively coated to assure stain resistance and long-term durability.

PRIME/PVC <i>Leather Match</i>	P/PVC301	Black
	P/PVC307	Latte
	P/PVC308	Havana
	P/PVC312	Brown

PRIME/PVC is a practical combination of top-grain, aniline-dyed prime leather and color-matched vinyl. High-quality leather is used on the arms and seat where the body usually touches the surface – giving the coziness of leather and durability of vinyl.

TREND	T401	Tuxedo
	T402	Toffee
	T403	Lemon
	T404	Vanilla
	T406	Chocolate
	T408	Sand
	T409	Cognac
	T410	Nature
	T411	Snow
	T412	Smoke
	T413	Chili
	T414	Pebble
	T415	Pacific

TREND is a premium top-grain, aniline-dyed leather with a more contemporary look and smoother surface. Trend is an ideal choice for people desiring robust, easy-to-maintain, natural-looking leathers.

LEATHER COVERS APRIL 1, 2011

NAME	CODE	COLOR
CLASSIC	C510	Pecan
	C515	Burgundy
	C525	Coffee

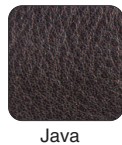

CLASSIC is a full-grain, aniline-dyed leather made from select hides. These leathers are exceptionally soft, with a visibly natural quality. Its minimal surface treatment allows the leather, over time, to exhibit a beautifully classic patina.

ELITE	E601	Limousine
	E602	Bourbon
	E603	Sahara
	E604	Ruby
	E605	Saddle
	E606	Espresso

ELITE is a smoother, full-grain, aniline-dyed leather made from a select private reserve of thick (1.4 - 1.5 mm) hides. Yet, these leathers are pliable, soft, and subtly breathe by responding to body temperatures – like all fine leathers should.

ANILINE	A902	Java
----------------	------	------

ANILINE is the most natural state of luxurious leathers, because the dye process is the most thorough. These are the most color-fast and durable of all leathers.
